Advanced PVC Polymer Technology  
designed to last a lifetime.

# Hardwood, without timber.

**Elements Advanced PVC Polymer Technology** boards offer an ultra-realistic finish, capturing the complex, multitone aesthetic of premium exotic hardwoods, without the maintenance that comes with traditional timber.

► **Standard Width**  
( 140mm (W) x 4880mm (L) x 25.4mm (H) )

► **Narrow Width**  
( 89mm (W) x 4880mm (L) x 25.4mm (H) )

► **Wide Width**  
( 184mm (W) x 4880mm (L) x 25.4mm (H) )

## Discover Multi-Width

Multi-width boards offer the design flexibility to create a truly unique finish, adding visual depth to any project.

## Two Uses

Elements boards can also be used as Cladding, providing a cohesive solution for your outdoor space.

**Limited Lifetime Warranty**  
Your investment is protected by a 50 year limited lifetime warranty.

**60% Recycled Material**  
Made from approximately 60% recycled material including post-construction scrap polymers.

**Cool Touch Technology**  
Better for bare feet and paws, staying up to 15°C cooler than other decking products.

**Curve & Shape**  
Elements boards are designed and manufactured to be curved and shaped.

**No Expansion Gaps**  
No expansion gaps required, butt end & mitre joints together.

**No Pre-Drilling Required**  
Elements boards require no pre-drilling, utilising Cortex® Fasteners for a faster installation time.

Three traditional hardwood colours, without traditional timber maintenance.
