Wide Width
25.4mm x 184mm x 4870mm

Standard Width
25.4mm x 140mm x 4870mm

Narrow Width
25.4mm x 89mm x 4870mm

Premium hardwood, without timber.

Elements® Advanced PVC Polymer Technology boards offer an ultra-realistic finish, capturing the complex, multi-tonal aesthetic of premium exotic hardwoods, without the maintenance that comes with traditional timber.

Discover Multi-Width

Multi-width boards provide the design flexibility to create a truly unique finish, adding visual depth to any project. Elements® boards have **two uses**, as they can also be used as cladding to provide a cohesive solution for your outdoor space.

FIRE CLASSIFICATION
EN-13501-1 Bfl s1

Elements® Decking has been rated as Class B in fire safety testing.

COOL TOUCH TECHNOLOGY

Better for bare feet & paws, staying up to 15°C cooler than other decking products.

EXPANSION GAPS NOT REQUIRED

No expansion gaps required, butt end & mitre joints fit together.

60% RECYCLED MATERIAL

Made from 60% recycled material, including post-construction scrap polymers.

CURVE & SHAPE FLEXIBILITY

Elements® boards are designed & manufactured to be curved and shaped.

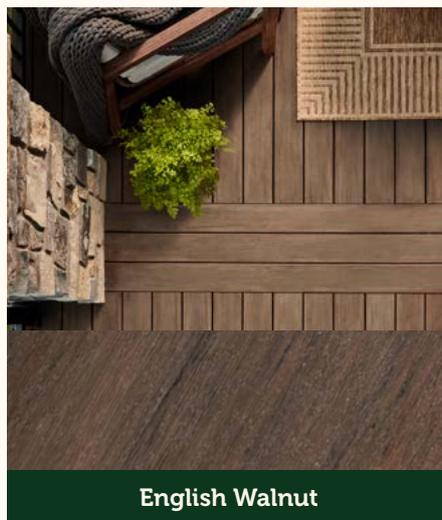

PRE-DRILLING NOT REQUIRED

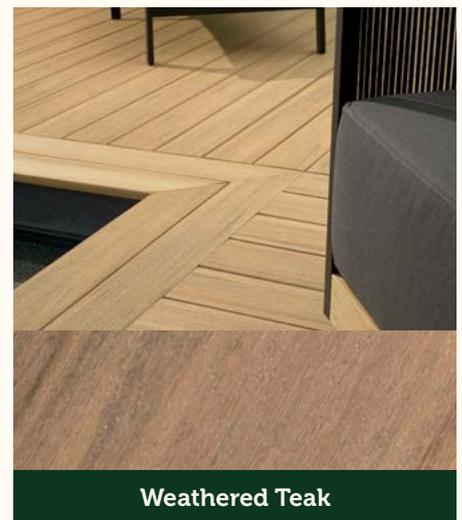

Elements® boards require no pre-drilling, utilising Cortex® Fasteners for a faster installation time.

Coastline

English Walnut

Weathered Teak

Three traditional hardwood colours, without traditional timber maintenance
